Trading Platform requirements

MetaTrader 5

MetaTrader 5, PC specifications:

The desktop version is comparable to Windows 7 and higher (Windows 10 is strongly recommended). Intel Celeron-based processor with SSE2 support and a frequency of 1.7 GHz or higher is essential. Also, screen resolution with a minimum of 800 x 600 is required. Please check your Internet connection: its speed should be 36.6 Kbps or faster. For a better experience, you need at least 256 Mb of RAM (512 MB is recommended) and a free drive space of 50 Mb or more. Other hardware requirements depend on the specific platform usage.

MetaTrader 5, WEB specification:

You can run MT5 Web on the latest versions of Chrome, Firefox, Opera, Internet Explorer (8.0 or higher), and Safari browser (2.0 or higher). Please check your Internet connection: its speed should be 36.6 Kbps or faster.

MetaTrader 5, Android specification:

The MT5 mobile application can be installed on a smartphone or a tablet powered by Android 5.0 or higher. Your Internet connection's speed should be 36.6 Kbps or faster. It is recommended to update MetaTrader 5 regularly, which will provide enhanced features and better stability. The MT5 application for Android requires at least 16.2 MB of free space on your phone.

MetaTrader 5, IOS specification:

MetaTrader 5 iOS is a full-fledged trading application for iOS-powered mobile devices. It is compatible with iPhone, iPod touch, and iPad. MT5 requires a smartphone or tablet with iOS 4.0 or later. The MT5 application requires at least 26.4 MB of free space.
